Mobile Project: Well-Being Check

Dashboard flow

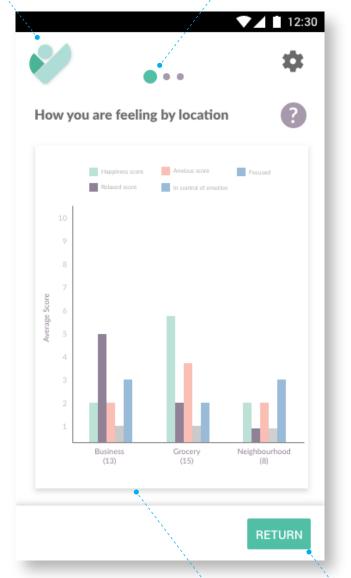

Tapping on the logo in any screens will bring the user back to the main WBC screen.

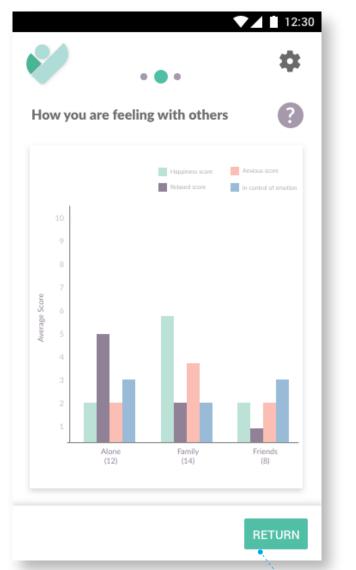

Page indicators. Clicking or swiping the page will navigate to different pages. The green dot shows current page.

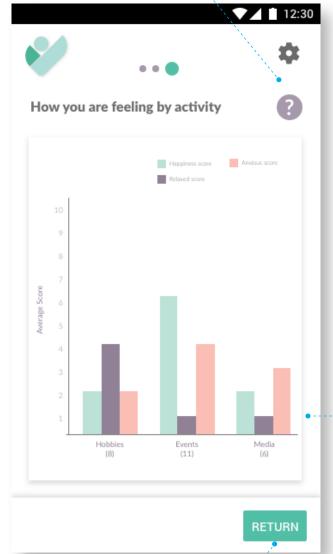

This will present to the user a popup that can will explain to the user the chart (as per the request of SM)

Pressing "details" will bring the user to the more detailed charts (next few pages).

This will bring the user back to the WBC main screen.

This will bring the users back to the "Your feelings this week"

Important to note that all charts are simple PNG. using the same data points as per the orginal "dashboard" design.

For this chart in particular, we combined both the activity graph and the mood together.
